

# gangland record corp.

I categorically ~~deny~~ any intentional wrong doing. The extreme measures taken by the department of incorrection to suspend my phone privileges & deny the media access are draconian at best. Such extreme steps are taken only with the most dangerous or disruptive inmates; I qualify as neither. In fact I've qualified for the most prestigious work assignments normally reserved for model inmates.

This investigation is not about narcotics or me being a threat to any of the staff, inmates or esteemed journalist that visit. This is about me inadvertently failing to comply with MCI's taliban phone rules, which amount to blackmail & extortion.

Furthermore the department of incorrections behavior underlines the truth that their goal isn't correction or rehabilitation but warehousing.
